## CHURCH NOTICES AND ACTIVITIES

## NEWS ITEMS FROM KINSELLA

Following the cut-off on the 15th of July when the 1928-29 Pool was closed, the Alberta Wheat Pool is taking court action against Pool members who failed to deliver all the wheat they raised during the crop year. The Pool contract calls for the delivery of all wheat raised by each Pool member within the confines of the Province and the stipulated penalty for infractions is 25 bushel. While the great bulk of the members are loyal, there are some who have apparently overlooked their legal obligations, and the organization is taking energetic action against the latter. It is realized by the Pool that court action is undesirable but at the same time it is not fair to the bulk of the membership for a comparatively small number to act disloyally and flout their contract.

Over 400 agents of Wheat Pool Elevators were assembled in Calgary last week at a four days' Convocation and every phase of the Pool Elevator business was fully discussed. H. W. Wood, Chairman of the Board of Directors of the Alberta Wheat Pool in his opening remarks strongly recommended that the agents would best serve the Pool's interests by dealing with the members with the utmost fairness. He pointed out there was no incentive under the Pool system of elevator operation for any agent to deal unfairly with any member. The Pool Elevator system is not operated for profit, Mr. Wood declared, but solely on the basis of service to the membership.

### MUNICIPAL DISTRICT OF BATTLE RIVER No. 423 Notice

Take notice that under the Tax Recovery Act, 1929, the following lands will be offered for sale by Public Auction at the Municipal Office at Irma, Alberta, on Friday, September

the 10th 1929 at 2 P.M.—  
N. E. of Sec. 20-44-9-with  
N. W. of Sec. 20-44-9-with  
S. W. of Sec. 20-44-9-with

The above lands will be offered subject to a sealed reserve bid and the observations contained in the existing certificate of Title.

Redemption may be effected by payment of the full amount of arrears of Taxes and costs at any time prior to sale.

Terms of the Sale will be 20 per cent cash and the balance in 3 equal installments at 8 per cent interest per annum.

Dated at Irma, Alberta, this 20th day of July, 1929.

R. J. TATE, Sec.-Treas.

The Woman's Auxiliary will hold an afternoon tea with home cooking sale, also a sale of aprons at the home of Mrs. Pryce Jones on Saturday afternoon, September 7th. Any donations will be very gratefully received.

The next meeting of the W. A. will be held at Mrs. George Knowles on August 27th at 2.30 p.m.

Following, Aug. 10.—With an estimate of a loss of between \$45,000 and \$50,000 the bulk of which is covered by insurance, seven stores in the heart of the business section of Tofield were destroyed by fire early Saturday morning, while the residential section of the town was only saved by the heroic efforts of the Tofield volunteer fire brigade, aided by fellowtownsmen, who turned out en masse to fight the flames.

As it is, the butcher shop of Chas. Hebborn, the boys' wear shop of H. E. Rogers, the Reliance store of Ernie Rogers, the jewelry shop of Wong Fong Kay, the grocery store of T. W. Taylor, and the auctioneers and implement warehouse of F. O. Ball, together with a Chinese cafe and other small stores are total losses.

The fire was first noticed shortly after 12:45 a.m. and had apparently started from spontaneous combustion in some straw in the ice house of the butcher shop.

With a slight wind blowing, and the flames threatening the residential section, the firemen devoted their attention to saving the Wilson residence back of Taylor's store. The fire was checked at this point and the residential district saved, as it is generally conceded that if the Wilson residence had caught, nothing could have saved the rest of the town.

Word of the fire was telephoned to Edmonton and a chemical truck from the Edmonton department made a fast run to Tofield, making the distance in a little over an hour. Their arrival saved the poles and wires of the telephone station and long distance system as these were already burning when they arrived, but were extinguished by the chemical apparatus from Edmonton.

### FIRE DESTROYS HOLDEN GARAGE

Starting from some unknown cause fire destroyed the Holden garage shortly after midnight on Sunday with an estimated loss of \$30,000. This loss was partially covered by insurance.

Only a heavy downpour of rain and the efficient work of the Holden's department, prevented the blaze from developing into a conflagration such as those which recently destroyed the business section of Wainwright and Tofield.

The garage building was owned by Dr. F. J. Farrel of Holden, E. W. Lamont, who operated the repair shop in connection with the garage places his loss at \$6,000. The Holden Motors occupants of the garage, lost 12 new cars and 11 used ones.

The next meeting of Avondale U.P.W.A. will be held at 2 o'clock p.m. at the home of Mrs. Ballantine on Thursday, August 22nd. This meeting is taking up a study of the new proposed school act to become familiar with its contents and its merits and demerits.

The old guide's warning

The old guide's warning  
many forest fires resulting in the destruction of excellent hunting grounds as well as valuable timber. The good hunter is careful with fire in the woods.

### WAINWRIGHT LAWYER DEAD

H. V. Fieldhouse, prominent Wainwright barrister, died in an Edmonton hospital last Saturday. He was 51 years of age and leaves a wife and three daughters to mourn his loss. He was interested in several oil companies and was a firm believer in the future of the Wainwright oil field. He was a resident in Wainwright during the past twenty years and had high esteem in the community.

### CARD OF THANKS

We wish to express our most sincere and heartfelt thanks to all whose kind and loving help and sympathy has been so freely given to us in our deepest hour of sorrow, through the loss of our beloved husband, father, brother and uncle, Orville, and to especially thank the Masons, the Star, and all whose floral offerings speak silently but mean so much to us.

Mildred and Baby Chase,  
Willard Chase & Murray McElroy

As I have purchased the Jarrow Hotel from Jim K. Wong, all debts against the Jarrow Hotel should be presented to me at once. I will not be responsible for any debts after August 31st.

2t. Signed Lee Him

### POTATO BUGS HAVE MADE THEIR APPEARANCE (From the Viking News)

Potato bugs have made themselves unwelcome visitors in the gardens in this community. On Saturday, Jas. Pickering brought in several live bugs in a glass jar that he had picked off the potato vines in his garden, and said that there were several more doing nicely and thriving in his potato patch.

How they got into his patch is not known, as only local seed potatoes were planted. We note that at Foremost and in the Peace River country potato bugs have also made an appearance.

A determined effort should be made at once to exterminate these bugs, before they get a foothold in this province. Many of the early settlers here coming from eastern Canada and United States will remember that they had to gather painful

of these bugs from the potato vines, and when after going over the patch once, they had to start all over again. The western farmers and gardeners have enough to contend with without having their potatoes go "bugs."

The Irma Public School will open for the term 1929-1930 Monday, August 26th, 1929. Will all parents who

wish their children to start in the junior room please leave their names with the Chairman of the School Board or the Secretary-Treasurer.

Mrs. E. T. McDowell will have charge of the senior room and Miss E. C. Stewart, formerly of Vegreville will have charge of the Junior room.

Mrs. Steele and son Clarke of Clark Manor spent Sunday with Mr. and Mrs. William Anderson.

Miss Bowman of Vegreville spent Saturday afternoon with Mrs. R. Eaton.

Mr. Ben Wachter of the B & B gang of the C. N. R. spent Sunday at his home here.

The Baby Clinic under the auspices of the W. I. will be held in Lee's Hall on August 23rd.

Mr. William Turnbull who has been in Edmonton for the past few months returned home last Wednesday.

Miss Ellen Neale returned home on Sunday from Vermilion where she has been for the past few weeks with her grandparents.

Mr. and Mrs. William Anderson, Mr. Frank Williams and Miss Margaret Scott attended the Chautauqua at Irma last Friday evening.

The Misses Marion and Jean Wembly who have spent the past few weeks with their grandparents, Mr. and Mrs. James Murray returned to their home at Prince George last Tuesday.

Mr. Harry Burkholder of Radway Center spent Saturday with Mr. and Mrs. R. Eaton, he returned home on Sunday.

Mr. and Mrs. E. C. Williams, and family, Mr. and Mrs. McKeon, and family, and Mr. and Mrs. Scott and daughter spent Sunday afternoon at Birch Lake.

Quite a number from the W. I. here are planning on going to the W. I. Convention being held at Galahad on August 16th. Mrs. Charlie Turnbull is the delegate from the W. I. here.

Mr. J. P. Yeend of Irma, can fix your old stove, no matter what make it is. See him.

### Reform Of Electoral Methods

Recent elections in Great Britain, in Canada, and more recently still in the Province of Saskatchewan, all seem to point in the same direction, and that is to a change in the system or methods of choosing Parliamentary representatives. For many generations the underlying principle of the British system of responsible government has been ruled by the majority of the people as indicated by their selection of party representatives in the House of Commons or Legislative Assembly, as the case may be. And such representatives were chosen, for the most part, by constituencies represented by a single member. So long as the electorate were divided into only major parties or groups of political thought this system worked fairly well, although it was never wholly representative of public opinion.

Now, however, that the two-party system has been, or is being, replaced by three and sometimes four or more parties, the weaknesses of the old system have become apparent, and the old principle of party by majority is rapidly becoming impossible of realizations. On the contrary, at Westminister, at Ottawa, at Regina, each party represented in Parliament is a minority party, and in each instance the smallest of these minority groups holds the balance of power. In each of the legislative bodies referred to, the group having the largest representation in the House constitutes the government party, but at any moment, and on any question that may arise, the government may suffer defeat and be called upon to give place to another minority group.

With the exception of the United States where the two-party system continues in favor, partly, perhaps, because it is so interwoven into the whole fabric of government, national, state, municipal, even county and judicial, it appears to be giving way throughout the world. In Germany, France, Belgium, and other countries having responsible government, government is only possible by a coalition of parties, or a working understanding between them. Admittedly, it does not make for strong government in government, France being a notable example.

The multiplication of political parties or groups has, in most European countries, brought about a change in electoral methods. In some, single member constituencies have been abolished, the single transferable ballot, or Proportional Representation adopted, or the second election system inaugurated. Even in the United States the primary system almost amounts to a second election. In a word, it is recognized that the single member constituency where a mere plurality of votes is sufficient to elect, regardless of the number of candidates in the field, no longer meets the needs of the situation.

And it is becoming increasingly evident that it will not for long prove acceptable to the people of Great Britain, or Canada, or in the Provinces of Canada. Opponents of Proportional Representation have always argued that it tends to a multiplication of parties or groups, but the fact now has to be faced that this multiplication has taken place under the existing system. The system itself, therefore, must be altered to meet the changed conditions.

Most politicians will not welcome any change, but they cannot prevent it. The important question is—What basis of representation and method of voting should be adopted to best meet the needs of the new conditions that have arisen? Already the subject is engaging the attention of political students in Great Britain, and it is confidently predicted that the unwritten constitution of the Old Country will undergo some change. Occupying the commanding position he does in the present Parliament, and suffering the handicap of a much smaller representation in the House of Commons than the vote polled by his candidates in the country justly entitles him to, Lloyd George will not long remain content with things as they are. He can, and probably will, demand as one price of his continued support of the Ramsay MacDonald Labor Government a reform of electoral methods and machinery which will accord full value to every individual vote cast, and not place third or fourth party candidates at a distinct disadvantage.

Whether the solution is to be found in larger multiple-member constituencies replacing the present single-member seats, with the adoption of the single transferable ballot, or even Proportional Representation, or in a complete change in the accepted form of cabinet responsibility, involving a fixed term for Parliaments and Legislatures, denial to a government of the right of dissolution except upon a straight vote of want of confidence, and the formation of a cabinet consisting of representatives of all groups, and based upon their respective numerical strength in the House, time alone will disclose.

One thing, however, may be accepted as sound, and that is that the genius of British statesmanship which in the past evolved the best form of democratic government the world has yet known will be capable of meeting the new situation and solving the problems which it presents.

#### Plane In Freak Accident

#### Strikes Steam Roller In Making Landing At Roosevelt Field

When an aeroplane and a steam roller collided at Roosevelt Field, N.Y., the accident ruined the plane and injured the operator of the roller.

James Riddle, piloting a small

monoplane in which two friends were riding as passengers, chose for his landing a part of the field which was being levelled off and on which two steam rollers were at work, hidden from the air by the cloud of dust they raised.

The descending plane took off the smoke stack of one of the rollers and bowed the operator, A. C. Madhaver, from his seat, breaking his shoulder.

The plane crashed, tearing off the left wing, and otherwise damaging it beyond repair, but Riddle and his passengers escaped without injury.

#### Plant Grows Leaves After Having "Sleep"

Replaces Withered Foliage In Fifteen To Twenty Minutes

After "sleep" of from 15 to 20 minutes, a plant, recently developed in Germany, produces new leaves. So sensitive is it that if the leaves are touched, or a match burned near them, they immediately wither and fall off. In about a quarter of an hour after the withered leaves have dropped off, new ones grow out. The plant is a member of the mimosa family. It grows in great quantities in India, where it is gathered and sold for commercial purposes. The bruised leaves are said to have a high medicinal value in healing burns.

#### U.S. To Reduce Military Expenses

President Hoover Says Military Budget Now Greater Than Any Other Country

President Hoover intends to establish a commission of army officers within the general staff to see what can be done toward reducing military expenditures.

The commission, the president said recently, would be charged with making an enquiry to determine what has been made obsolete by scientific advancements and could be done away with; and what army programmes can be spread over longer period than originally intended and at the same time maintain complete and adequate preparedness.

The president said the purely military expenses of the United States constitute a military budget greater than that of any other nation and at a time when he considers there is less danger of war than at any period within the last fifty years.

It is now estimated, he said, that the military outlay for 1923 will be \$803,000,000, which is \$120,000,000 more than the similar expenditure for the fiscal year just closed, and compares with an average pre-war expenditure for military activities of the army and navy of \$266,000,000 annually.

#### NEW HEALTH FOR TIRED-OUT WOMEN

Found In The Rich, Red Blood Dr. Williams' Pink Pills

Actually Make

Anæmia comes on gradually, beginning with languor, indisposition to mental or bodily exertion, irritability and a feeling of fatigue. Later comes the palpitation of the heart, the frequent fainting, backache and often disturbance of digestion and an inability to obtain rest at night. Cases of this kind, if neglected, become more serious, but if taken in time, there is no need to worry. Dr. Williams' Pink Pills which we are drug, are just one of many harmful habit-forming drugs, are the tonic needed to remedy this "wretched" state of health. These pills actually make the heart strong and the blood strong. Strengths every organ and nerve in the body. Thus strength and activity return, the appetite improves and restful sleep is had. What Dr. Williams' Pink Pills can and will do, is shown by the case of Mr. D. B. Fanning, Seal Harbor, N.S., who says: "I was in a badly run-down condition. I was pale, my appetite was very poor, and the least exertion made me tired. I was hardly able to do much work about the house. I decided to try Dr. Williams' Pink Pills. After taking a few doses, I can truly say I had gained greatly in health and strength and was able to go about my work with no sign of the former weakness. I cheerfully recommend them to all who may be in a run-down condition."

You can get the pills from your druggist, or by mail at 50 cents a bottle from the Dr. Williams' Medicine Co., Brockville, Ont.

#### Cyclists Honor War Dead

Nearly 10,000 cyclists, many of whom had ridden all night from the extremes of England and Wales, gathered on a recent Sunday morning before the National Cyclists' Memorial, at Meridian, believed to be the exact centre of England. About 3,000 of the cyclists were girls, and most of them were cycling breeches. A brief service was held at the memorial, which was erected seven years ago to commemorate cyclists killed in the World War.

**For Scalds Or Burns.**—Dr. Thomas Electric Oil is a standard remedy for the prompt treatment of scalds and burns. It is a powerful pain-killer, soothes the pain and aids a speedy recovery from the injury. It is also an excellent remedy for all manner of cuts, bruises and sprains, as well as for relieving the pain arising from inflammation of various kinds. A bottle in the house and stable saves many a doctor's and veterinarian's fee.

#### Alberta Premier Tours North

Party Will Go To Extreme Northern Part Of Province

Hon. J. E. Brownlee, Dr. C. C. Wallace, president of the University of Alberta, have left Edmonton over the Northern Alberta Railway for the Peace River country on a four weeks' tour of the north in which they will use railway, power boat, auto and airplane.

Their itinerary will take them as far as Fort Fitzgerald on the north edge of the province, then into the Northwest Territories to Great Slave Lake and as far east as Lake Athabasca, on the northeastern corner of Alberta.

They were accompanied by John M. Irvin, managing director of the Edmonton Journal, who joined the premier on Premier Brownlee's invitation. This will be the first time in the history of the province of Alberta that the head of Alberta's government and the head of Alberta's University will travel to the extreme northern boundary of the province.

The itinerary also includes a four days' speaking tour of the Peace River country by the premier, a visit to the Wood Buffalo Park and an inspection of mineral development in Great Slave Lake and around Lake Athabasca.

Inspector Hancock of the Alberta Provincial Police is in charge of all arrangements.

#### Many Claimants For Czar's Fortune

Three Cornered Legal Fight For Millions Left By Assassinated Ruler

The personal fortune of the late Czar Nicholas II, of Russia, reported to be approximately \$100,000,000, has become the object of a three-cornered legal fight which is expected to be tied up in the courts for years.

The Soviet Government is the last party to lay claim to the fortune, much of which is supposed to be on deposit in the United States. Another claim has been entered by a woman, now in the United States, who says she is Princess Anastasia, youngest daughter of the Czar and the only member of the family to escape assassination in the revolution. She is known as Mme. Tschakowsky. Recognized relatives of the late Czar, who claim Mme. Tschakowsky is an impostor, also are fighting for a share of the money.

#### Keeps a Mouse Farm

Have you ever heard of a mouse farm? There is one at Rayleigh, in Essex, where mice are reared just as cattle and sheep are on ordinary farms. There are 50,000 mice, and of nearly every color. Yet, although there are so many, Mr. Tuck, the farmer, can put his hands on any one of them at a moment's notice. About three hundred young ones are born every day, and it takes five hours to feed them all. They are sold to colleges and hospitals for experiments.

#### Garage For Women Autoists

A garage for the sole use of women autoists has just been adopted by women in London. A club devoted to feminine needs is a feature. Here fair motorists have writing rooms and dressing and change rooms, with bathrooms adjoining. Women auto enthusiasts recently dedicated the place with solemn ceremony.

#### Reduced Crop Likely To Halt Immigration

Some Of Departmental Money May Be Used To Assist Farmers

The crop situation in Western Canada will have a salutary effect on immigration, it is believed in the capital. The foresightedness of Hon. Robert Forke in limiting continental immigration and shutting it off on May 31, is considered as having prevented a more serious situation in the west and relieved to some extent the inevitable burden of unemployment which follows a poor crop year. Mr. Forke has been in Western Canada with W. J. Egan, his deputy, and it would not cause surprise at Ottawa to find that still further restrictions will be placed on continental immigration, and that even British immigration may be pared down.

At present any Britisher can come to Canada at the low rate of \$50. The nominal rate is \$90, the balance being made up by the British and Canadian governments. With poor crops in the west and less employment, the Government will guard against an undue influx which may swell the unemployed. Farmers cannot carry hired hands through the winter when the crop has been poor and the cities will have enough unemployed with those already here.

There is even a suggestion that some of the immigration expenditure may be diverted to assist the farmers, should conditions develop along the down road as at present. The land settlement board, formerly the soldier settlement board, may be called upon to keep track of the farmers in the various stricken districts and render such aid as may be possible.

#### Prince Receives Prize Winner

Successful Marksman at Bisley Also Has Messages of Congratulations

The Prince of Wales received Lieut.-Col. R. M. Blair, commanding officer of the Seaforth Highlanders, Vancouver, B.C., at St. James Palace and congratulated him on his success in winning the King's Prize at the recent meet of the National Rifle Association at Bisley. In addition to a host of messages from Canada, Lieut.-Col. Blair is especially gratified by the receipt of congratulations from every battalion of the Seaforth Highlanders in the British army, he said. An old lady, a perfect stranger to Lieut.-Col. Blair, has written to the King's Prize man from Guernsey, one of the Channel islands, expressing the hope that he is a teetotaller.

**It Bids Pain Begone.**—When neuralgia racks the nerves, or lumbar cripes the back is the time to test the virtues of Dr. Thomas' Electric Oil. Well rubbed in it will still the pain and produce a sensation of ease and rest. A trial of it will establish faith in it.

A notion prevails that no automobile driving is reckless unless an accident happens.

Tusks of 4,000 elephants go into the world's annual supply of billiard balls.

A DOZEN different things may cause a headache, but there's just one thing you need ever do to get immediate relief—Aspirin. And it's quick, it's painless.

Keep it at the office. Have it ready in the home. Those subject to frequent or sudden headaches should carry Aspirin in the handy pocket tin. Until you have used it for headaches, colds, neuralgia, etc., you've no idea how much Aspirin can help. It's quick, complete relief to millions of men and women who use it every year. And it does not depress the heart.

Turner Valley Oil

#### Production and Revenue Shown To Be Increasing Rapidly

The Turner Valley oil field in Alberta becomes increasingly significant and its production and revenue are steadily increasing. A continuous rise in naphtha production has been recorded month by month since the beginning of the year. In January there was a total of 38,501 barrels turned out with a value of \$154,000, which rose by consistent increments to 92,122 barrels with \$368,480 in June. The total for the six months of the year was 356,272 barrels of crude naphtha worth \$1,545,088. The expectation is for fully 100,000 barrels in July which would give a revenue for the month of some \$400,000.

Recognized as a leading specific for the destruction of worms, Mother Graves' Worm Exterminator has proved a boon to suffering children everywhere.

**Tourist Traffic Heavy**

Tourist traffic in the west will break all records this year, judging from present indications, in the view of H. F. Mathews, of Winnipeg, general manager of western hotels, Canadian Pacific Railway. The mountain resorts are booked almost solidly for the season, he said, especially the hotels at Banff and Lake Louise.

## Laudable Movement Has For Its Object the Interpretation Of British and Canadian Music

Fashion has its place in music as of pretenders of music, Canadian singers well as other things, and fashion has and players are to be found among had much to do with the neglect of the vernacular in London, Eng., Paris, and New York, while the Canadian ensemble known as the Hart House Quartette, is second to none.

The first recital of the series will be given by Marjory Kennedy Fraser, the gifted woman who sings in beautiful fashion the lovely songs of the Hebrews, which she has given to a musical world. She will be accompanied by her sister, Margaret Kennedy, a well-known teacher, who was given the honorary degree of A.R.A.M. for her services as lecturer on harmony at the Royal Academy.

The second concert is that of Stanley Maxsted, brilliant tenor of Montreal, and Mary James, soprano, star of the Banff Scottish Festivals. The third group is composed of Florence Hood, an English violinist, now living in Montreal, and Jean Rose, lyric soprano of Toronto. Rudolphe Flamondon, French-Canadian tenor and his son Lucien, cellist, will be another pair, the Hart House quartette the fifth, and John Goss, an English baritone, will complete the series.

Marjory Kennedy Fraser and her sister will start their tour at the Empress Hotel at Victoria, Sept. 12, after the Banff Scottish Festival at which she will be one of the principal artists. Her other concerts in the trans-Canada tour will be given at Vancouver, Sept. 16; Calgary, the Hotel Palliser, Sept. 21; Regina, the Hotel Saskatchewan, Sept. 23; Winnipeg, the Royal Alexandra, Sept. 26, and the Royal York at Toronto, Sept. 30.

### Value Of Sleep

#### Possibility To Live Longer Without Food Than Without Sleep

Science has evolved drugs that will put one to sleep, but just what it is that brings natural sleep is as great a mystery today as it was to the cave-man who curled up on his rock mattress with his flowing beard spread over him for a quilt. It is a commentary on human nature that we are more particular about our food than we are about regular hours of sleep, yet it is a fact, definitely established, that it is possible to live much longer without food than without the benign embrace of Morpheus.

—Hamilton Spectator.

London's Tube stations now have eighty-three escalators.

It is estimated that 5 per cent. of men are color blind.

It is, therefore, in the national interest that Canadians should have more opportunity of hearing the music which is their legitimate heritage, and with that end in view the music department of the Canadian Pacific Railway has organized a series of concert tours, with artists of distinction who will interpret British and Canadian music to Canadian audiences. For practical considerations, Canadian Pacific hotels in six large cities have been chosen for this series.

The scheme has the warm approval of leaders in the Canadian musical world, such as Dr. Ernest MacMillan, Principal of the Toronto Conservatory of Music.

Canada has so recently emerged into nationhood that any large output of distinctively Canadian music could hardly be expected. There is, however, a rich store of folksongs, particularly in the Province of Quebec, retained by tradition from the early settlers of New France and so adapted to Canadian life as worksongs that they have assumed a colour and quality of their own. There are, too, a number of young Canadian-composers whose work is obtaining recognition by international publishers. Among the inter-

### Canada's Fruit and Flower Production

Value During Year Ending May, 1928, Was Well Over Two Million

According to the official figures collected by the Fruit Branch of the Dominion Department of Agriculture, the total value of the commercial food products of Canada for the last calendar year, amounted to \$19,824,335, comparing favourably with the 1927 total of \$17,605,995.

The respective figures for the five provinces listed were reported as follows: Nova Scotia, \$3,228,050 and \$2,578,565; New Brunswick, \$190,660 and \$261,300; Quebec, \$848,409 and \$729,525; Ontario, \$7,620,121 and \$6,619,930; British Columbia, \$7,937,102 and \$7,116,675. Although British Columbia is usually regarded as the banner fruit province of the Dominion, the report shows that only slightly over \$300,000 separated the Pacific Coast province from the Great Lakes province, a striking testimony to the general agricultural wealth of Ontario.

Taking commercial apples alone, the total production for the Dominion is finally estimated at 3,225,970 barrels, valued at \$11,290,867, comparing with 2,610,600 barrels, valued at \$10,411,935, the finally revised 1927 estimate. The average value per barrel was \$3.49 in 1928, and \$3.70 in 1927. Total nursery fruit stock sales for the year ending May 31, 1928, are valued at \$351,737, against \$317,661 for the corresponding year 1926-27.

The total value of the horticultural and decorative plant production of Canada during the year ended May 31, 1928, as represented by these statistics is given as \$2,680,130, comprising \$491,965 for outdoor roses, \$54,462 for other outdoor trees, \$32,585 for specific indoor plants, \$19,523 for other indoor plants, \$73,415 for flowering bulbs, and \$1,693,180 for cut flowers. Clearly, therefore, the cut flower industry exceeds all the other categories together, both in volume and value. The value of the cut flower stocks represented in fact, 63 per cent. of the total.

Alberta Pool Interim Payment

One dollar a bushel will be the interim payment on wheat for grain delivered to the 1929-30 crop, according to an announcement made at the Alberta Wheat Pool offices in Calgary. Last fall when bad stump in wheat prices occurred the initial payment was lowered from \$1 to 85 cents, but the previous interim payment will be issued this fall.

New York City now has more than a million school children.

A word to the wise should be superfluous.

### CONSIDERED JAIL THE BETTER PLACE

Leonard French, 68 who ran away from the poorhouse, after his first night there, to the Toronto jail, where he asked to be committed because he considered the jail the better place.

### Plenty Of Employment

#### New, High Rate Of Activity Is Shown Throughout Canada

Employment in Canada has reached a new high rate of activity for all time. During the month of June alone, 23,109 workers were added, bringing the total on July 1, to 1,069,700. Figures were compiled by the Dominion Bureau of Statistics, from 6,519 firms.

Every month this year has shown larger figures than the year.

Since April the trend of employment has taken a sharp upward turn. On July 1, all previous records had been broken and the movement still continues upward.

The Bride—Are you sure your marriage service is just as valid as any other?

The Justice of the Peace — More so. Remember, if you promised to obey this man, and if you don't I can fine you for contempt of court.

### TO TOUR CANADA

## Western Coal Operators Are Interested In Railway Board Hearing On Freight Rates

Western coal operators, according to their head, W. W. McBain, are whole-heartedly behind the joint action of the provinces of Alberta and Ontario in requesting a further Railway Board hearing on the subject of freight rates.

Formal application for this hearing has just been made by Earl Lawson of Toronto, counsel for the two provinces.

"Considerable quantities of domestic fuel were shipped to Ontario during 1928," Mr. McBain says in explaining the situation "under the Order-in-Council providing a temporary freight rate of \$6.75 per ton. The Federal Government undertook to secure the railways against loss in hauling the coal and the Order-in-Council authorized the Board of Railway Commissioners to name what amount, if any, was due to the railways after the conclusion of each seasonal movement of which the 1928 one was the first.

"Now, as we understand it, the railways are applying to the Board for definite payment per ton on the coal hauled last year. As the coal operators view the matter, the chief reason for carrying on these experiments in coal transportation is in order to ascertain over a period of years, exactly what it does cost to bring coal into Ontario from the west. The Order-in-Council, as we read it, states this in the plainest terms."

"The statements which have been submitted to the Board," Mr. McBain continued, "apparently take a different view of the matter and disregard the actual or out-of-pocket cost of hauling the fuel. Ontario and Alberta have made a submission to the Board, to this effect, asking for a hearing on the question and requesting that the two roads furnish the Commissioners with this further information."

Mr. McBain pointed out that the stand taken, both before the Senate Committee in 1923, and the Committee of Mines and Minerals of the House of Commons, was that a distinctive Canadian fuel policy, which would tend to provide for the needs of Canadian consumers from the output of Canadian mines, would be very much in the national interest. Alberta has sufficient coal resources to provide for the Dominion's needs for eighteen centuries. Ontario pays into the pockets of American operators and railroads approximately thirty millions annually as a result of her purchases of anthracite in this foreign market. It would be greatly in

the national interest to keep this to their head, W. W. McBain, are money in Canada, and the problem of doing so boils down to one of transportation.

"It has been taken for granted," Mr. McBain stated, "that the great economic importance of a national fuel policy put the matter on a different plane from any ordinary discussion of haulage costs, and that some scheme might properly be worked out under which fixed charges, which the railways must meet in any case, and which go on just the same, whether fuel is hauled or whether it is not, would not be assessed against the coal movement, particularly so, since the coal would be carried during the off-peak grain season, and in cars which would otherwise be lying idle on the sidings."

"Naturally, any such rate must also be fair to the railways," Mr. McBain said, "but the first necessity preliminary to the consideration of a permanent arrangement is definite knowledge of what it does actually cost the two great continental roads to bring the coal east. That is what the two provinces are asking the Board of Railway Commissioners at Ottawa, to find out, and an investigation, with that end in view, was requested by the Order-in-Council of last year.

"When Mr. E. P. Mallory, the expert of the National Mines, appeared before the Senate Committee in 1923," Mr. McBain declared, "he gave \$8.91 per ton, as the out-of-pocket cost and, subsequently, a telegram to the Committee from Sir Henry Thornton made the offer to carry the coal at \$9 per ton. At that time, operating costs were higher than they are today, as the reports of the railways show, so that it is logical to suppose that the cost now is less than it was at the time the suggest of a \$9 rate was made."

"In September 1922, two reports on the out-of-pocket cost were made by the Board of Railway Commissioners following an official inquiry into costs. The majority report found the out-of-pocket cost of coal transportation to be \$7.22 per ton, while the minority report gave a figure of \$6.50 per ton. The operating costs on which these calculations were based were also higher than those of the present time."

"But we are informed," Mr. McBain concluded, "that on the basis of the 1928 coal movement, one statement gives \$15.03 per ton as the amount claimed or, in other words, the difference between \$6.75 and \$15.03 as the sum per ton which the government should pay."

"This is not only much higher than either the \$7.22 or \$6.50 Railway Board out-of-pocket figures and well above the \$9 offer of 1923, but it is even \$3 per ton higher than the average rate for all commodities for the distance which the coal was moved."

### Swedes Are Original

The Swedes have made great advances recently. Unlike other nations they are not slavishly following Anglo-Saxons. They are developing a civilization of their own. A Swede controls the world match market. Another Swede, a lady, has won the Nobel prize for the best novel. Another Swede is one of the two chief radium experts in the world, and still another is recognized as one of the greatest modern architects.

### The Marvelous Radio

Isn't wireless wonderful? Think of the jazz bands, the sopranos, the bedtime stories, the speeches, the poetry, and the thousand and one things you can silence with one little turn of a dial.

Marauken (finding friend preparing to eat bread and cheese without any sign of anything to drink): "Are you mad, man, eating on an empty stomach?" — Sondagansse - Strix Stockholm.

"My darling, are you happy?"  
"Yes, Theodore, I feel as if I am floating in happiness. I can't feel the ground 'under my feet.' —Lustige Sachse, Leipzig.

The British artists who will tour Canada during the coming fall and winter under the auspices of the Canadian Pacific Railway. The object of this series is to show Canadians the vast amount of splendid British music available and familiar in the Old Land. (1) Florence Hood, violinist of Montreal; (2) Marjory Fraser, famous collector and interpreter of Hebridean music; (3) Mary Frances James, young dramatic soprano; (4) Stanley Maxsted, English tenor, now resident in Montreal; (5) John Goss, bass, English exponent of Chanteys and modern English songs; (6) Rudolphe Flamondon, well-known French Canadian tenor.

Mid-Winter Golf Tourney at Victoria, B.C.

These photographs were taken on the beautiful Colwood Golf Course, Victoria, B.C., where the first Empress Hotel mid-winter golf tournament for the E. W. Matt challenge trophy will be held during the week of February 18. These pictures, taken on the 21st of January, give some idea of the summery nature of Victoria's winter weather. The hard-wood foliage is shed in the fall as elsewhere, but there is a wealth of evergreen at Victoria to make the fairways attractive and at no time during the winter is there sufficient moisture to spoil a round or to ruin the greens if played over.

### FORD WINS

Thirty-seven cars piloted by as many women started from Los Angeles in the first annual Gilmore-Wrightwood economy run and thirty-seven cars rolled into the final control late the same afternoon, having made the 170-mile circuitous run from the Gilmore refinery to the finish at Wrightwood Mountain, 6,000 feet high without mishap.

The contest was held under the sanction of the American Automobile Association and only stock cars were permitted to enter. The records established are a demonstration of comparative economical performance as each car used Blu-Green Gasoline and Monogram motor oil, observed the same rules, ran under the same weather conditions and could take advantage of no accessories other than those which were on the car as part of factory equipment. Mr. George Stevenson and Joe Nikrant, representatives of the A. A. A., handled the weighing in, filling and checking and the figures become official records of the Association.

Mrs. Paul Lawrence's Ford coach won not only the trophy by making the highest score regardless of size or class. This car consumed only seven and one-half gallons of gasoline, setting an average of 22.7 miles per gallon. The Ford Model A cars driven by Mrs. Zada Petit and Mrs. Margaret Harmon won second and third places respectively.

"THE ALBERTA WHEAT POOL  
 EXPECTS EVERY POOL MEMBER  
 WILL DO HIS DUTY."

If At All Possible

**Deliver all Pool Wheat  
 to Pool Elevators**

Pool elevators can handle Ninety Per Cent. of all Pool Wheat.

With a short crop this year it is imperative that Pool elevators should handle as much grain as possible.

Pool members' safety and the protection of the Six Million Dollars invested in Pool facilities demands that every possible bushel of wheat that can be delivered in a Pool elevator should go there.

Two cents a bushel farm storage will be paid on all Pool wheat held on farms until Dec. 2nd, 1929

**VIKING**

For some time past the need for more accommodation at the local municipal hospital has been apparent. The hospital as built in 1923 is now too small to take proper care of the patients that require attention, quite a few have had to be turned away on account of lack of room, and the time for some convalescents has had to be curtailed in order to let more serious cases in.

The public will not be slow to realize that this is not a satisfactory situation in regard to hospital accommodation and requirements, and something has to be done to relieve the situation.

With this in mind the hospital board held a meeting last week to consider the problem from every angle. Mr. Milne, provincial superintendent of organization was present, and the matter of increased accommodation was discussed. The board after due deliberation came to the conclusion that an addition will have to be built in the near future, large enough for ten or twelve beds.

The matter will be put up to the ratepayers of the hospital district some time this fall, and if the vote is favorable, the new wing may be built early next spring.

It is expected that debentures can be issued in such a way that the hospital taxes will be raised very little, if any.

That the board is acting wisely in this important matter is no doubt the consensus of opinion of those who have the health of the residents of the hospital district at heart.

The happiest man in town on Saturday was E. B. Hummel who received word from Sgt. Stewart of the A.P.P. that a car answering the description of the one stolen from his garage a week earlier had been found in the brush near the Wainwright tourist park.

Mr. Hummel accompanied by Const. Miller boarded the noon train here and were soon in possession of the car. It was found by boys camping in the park. It was first seen there the morning after it was taken from the garage, but no one paid any attention to it, as there were many cars parked in the tourist camp, but as the days went by and no one came near the car, the boys became curious and reported the matter to the police, who soon identified it as the car reported stolen from Viking. The car had not been damaged in any way, and the only article missing was the top tire cover. Mr. Hummel is fortunate in finding his car in such good shape and so close to home. The person or persons who helped themselves to the car are as yet unknown.

Cutting of this year's crop in this district will commence in earnest this week. The average yield will be from 10 to 12 bushels per acre, while in some cases the crop is negligible and others reporting a very good stand. We don't see many new binders or threshing rigs being set up this year, the old ones will have to do their stuff another season.

As fine a sample of wheat as we have seen this season, was brought to this office last week by A. W. Bowes who farms twelve miles north of town. The straw measured four feet in length and the berries were in excellent condition and were filling well. Mr. Bowes has a considerable acreage of this wheat which should yield at least thirty bushels per acre. We are told that there are several similar fields in the district north of town.

The summer chautauqua programs were concluded here last Thursday evening and the big brown tent was crowded for the final performance of "Smilin' Thru," an emotional drama that had had a wonderful reception everywhere.

A sufficient number of signers were secured to guarantee a four day chautauqua festival here sometime in the fall of 1930.

Messrs. H.E. Gares, W. E. McDonald N. C. Graham, P. E. Finch and G. W. Green enjoyed a fishing trip to Cold Lake over the week-end. They came back with a fine string of fish which they swear they caught themselves. Percy showed us one he caught that weighed 18 pounds, but the one that Noble had almost out of the water was . . . that long. They say Cold Lake is an ideal place for an outing.

A very enjoyable day was had at the R. F. Kelcey farm home Tuesday evening when a garden party was held under the auspices of the Women's Auxiliary of the Anglican church. A delightful program of music, recitations, talks, games, etc., was given, and a fine lunch served to all. The arrangements were excellent, and the grounds were well suited for such an occasion.

That part of Main street between third and fourth avenues which has always been an eyesore and mud hole every spring, has been graded and filled in so that it now is one of the finest stretches of road in the town. The council is planning to grade and gravel Main street next year and make it one of the finest main streets in the province.

WORLD HAPPENINGS  
BRIEFLY TOLD

Lady Jane Moreton, mother of Lady Blyng, died at Brighton, England, very suddenly at the age of 82 years. She was the widow of Sir Richard Moreton, son of the Earl of Ducie who died in March, 1927.

William Johnson, a powder monkey when the last shots were fired in the Crimean War, and a witness of the last hanging for naval mutiny, died recently at Weymouth, England, aged 85.

The British Admiralty has announced promotion of Admiral Sir O'Connor Brock to be Admiral of the Fleet, to fill the vacant caused by transfer of Admiral Sir Charles Madden to the supplementary list.

Concealed among the ship's paint supplies, which are stored in the forepeak, 108 tons of opium valued at \$10,000 were seized by customs examiners on board the "Empress of Asia," of the Vancouver-Orient service. No arrests were made.

A sale of 62 imported cattle by B. H. Bull and Son, at their farm near Brampton, Ont., brought total receipts of \$50,224. It is said the sale was the largest of Jersey cattle ever held in Canada and the average price of \$1,293 has never been equaled on the continent since 1926.

Official circles have intimated that the government was considering the possibility of voluntary curtailment of naval building as a gesture supporting building suspensions announced by Premier Ramsey Macdonald, of Great Britain, and President Hoover of the United States.

Set B. Nicholson, observer at the Mount Wilson observatory, said a gigantic spot has been discovered near the equator of the sun. The spot, described as having eighty times the magnetic intensity of ordinary sun spots, Dr. Nicholson said, was powerful enough to cause serious magnetic storms on the earth.

## A Master Scientist

Dean Boyle, of Alberta University, Accepts Post On Research Council

It may be assumed that when the National Research Council of Canada is able to attract to its staff scientists of the calibre of Dr. R. W. Boyle, M.A., Ph.D., dean of the faculties of physics and applied science at the University of Alberta, who has accepted the post of director of the physics and engineering division of the Council, it will, before long, be able to give a very good account of itself.

Dean Boyle, although only some 45 years of age, is already one of Canada's foremost scientists, ranking not far behind Professor J. C. McLennan, of the University of Toronto. During the war he showed that he was no mere theorist, in his chosen work, for he rendered important service to the British Admiralty in perfecting a device for the detection of submarines. His scientific and creative mind has also been responsible for devices for the detection of icebergs. He appears one of Canada's master scientists and it is fortunate that his services are now to be made available for Canada as a whole. The University of Alberta has now given two of its staff to the National Research Council. Dr. H. M. Tory, chairman of the council, is a former president of that institution.

## Honey Extraction Plant

The latest machinery is being installed in the new extension to the plant of the Riedel Honey Company at Taber, Alberta, and prospects appear to be first class. The new addition will be for honey extraction and a daily output of about 9,000 pounds is expected during the active season.

## Sheep Shearing In Alberta

Sheep shearing in the Picture Butte District, Alberta, is now about finished. Last year there were only five flocks in the district; this year there are 23, mostly ranging in size from 35 to 150 ewes.

## Want Night Air Service

Demand From Hamburg, Germany, To Be Included in Present Plans

Hamburg, Germany, is demanding that it be included in the present plans for night flying services that are to cover all Europe. The promoters of the service say that the favorable position of the city with its day services does not necessitate it having a place in nocturnal flights. While Hamburg authorities admit this they contend that the great importance of their city as a commercial center demands that it should be included. They point out that Hamburg is the junction for air service from Scandanavian countries and it should at least have night-service connection with Berlin and Rhine via Bremen to enable passengers arriving late in the day to continue their journey.

## Church Collections Suffer

Using Big Nickels Instead Of Quarters In Offerings At Ottawa

Governments have been blamed for troubles a plenty, but Canada's law-makers are cited as the cause of a new ill. Decrease in church collections is the latest trouble laid at the door of the Dominion Government, and an Ottawa churchman has made the charge.

With the advent of the "big nickel," church collections have fallen off, a preacher stated today, at a regular summer service. "The large five-cent pieces," he said, "are dropped into the collection plate with a flourish that belongs to nothing less than a quarter. I don't blame the smaller collections on the people. I blame the Government."

Fast Treasure House of Precious Minerals in Northern Canada

Minister of Lands and Forests of Ontario, who has been studying northern Ontario all his life and is an enthusiast for that country, stated that in his recent trip to the north he was given "a picture of northern possibilities that was beyond his previous ideas on the subject. Some time ago "The Financial Post" told of the existence of a vast bed of amber underneath a lake in Northern Manitoba. Already as a result of the publication of this article, which incidentally drew comments in British and American as well as Canadian papers, private parties have set out to plan for the complete exploration of this deposit. Last week another article in this paper told of various indications of precious stones in the north and even suggested the possibility of diamonds being found.

Gold and silver are now commonplace in our northern picture and platinum is becoming almost familiar to our mining men. Iron ore in vast quantities exists in Ungava and on the islands of Hudson Bay and aluminum can be extracted from northern clays. Copper deposits are known to exist in Northern Saskatchewan, and run into the Arctic Circle and air voileurs have skinned down upon the surface of lakes in the far north to find nickel and other base metals.

The north is an amazing country in future wealth. Canada can no longer be regarded as a narrow belt 3,600 miles long. It is a vast country approximately 3,000 miles square with as much promise in the far north as in the east and the west. — Moose Jaw Times.

## DRAPE FLARE

A new silhouette for the youthful smart woman. It shows the raised waistline, a chic detail in all Paris frocks. The circular skirt, in circular movement is draped at left side. The circular hem is draped treatment. Style No. 569 consists of printed and plain cotton voile, the popular summer fabric. It comes in sizes 16, 18, 20 years, 35, 38, 40 and 42 inches. The deep slender bodice makes it suitable for the larger woman, by placing the circularness low. Chartreuse green chiffon, tomato red crepe de chine, yellow batiste, crepe linon, orchid and georgette crepe, printed rajah in capeline tones, and sky-blue sheer lace are distinctly smart combinations for the morning afternoon茶会. Retail price 25 cents in stamps on coin (coin is preferred). Wrap coin carefully.

## HIGHLY PRIZED TROPHY

Ask Daylight Saving  
Act For Dominion

Move Being Made By City Council  
Of Stratford, Ontario

In reply to a resolution from the city council of Stratford, Ont., in which the local council was requested to petition the Dominion Government to pass legislation by which summer time will be made effective throughout Canada, special council instructed the city clerk, George Beach, to obtain information as to whether Stratford council is asking for daylight saving time for the summer months only or all the year round.

In the communication received, it was pointed out by the Stratford council that the Dominion Government had already been approached and petitioned by the former body. The Regina aldermen are in favor of Dominion-wide daylight saving time being established for the summer months, but are opposed to it being effective all the year round.

## Recipes For This Week

(By Betty Barclay)

## PARSNIP SOUFFLE

Cook four medium-size parsnips in boiling water. When tender, remove the skins and rub through a colander. Mix together one teaspoon salt, one-eighth teaspoon pepper, one teaspoon sugar. Add the seasonings and one tablespoon of butter to the parsnips. Melt two tablespoons of butter in a saucepan, stirring in two tablespoons of flour and one cup of milk. Be sure the mixture is thick and smooth. Add to the parsnips, together with the yolks of two well-beaten eggs. Beat the whites of the eggs until stiff and fold into the mixture. Put in a buttered baking dish and bake for 25 minutes in a moderate oven. Serve immediately, or the souffle will fall.

## PINEAPPLE PUNCH

1 quart water  
2 cups sugar  
2 cups chopped pineapple  
1 cup orange juice  
1/2 cup lemon juice  
Boil water, sugar and pineapple 20 minutes. Add fruit juices, cool, strain and dilute with ice water if necessary. Either fresh or canned pineapple may be used.

## Saskatchewan Farm Loans

Since the Farm Loan board was inaugurated in 1917, more than 4,500 farmers throughout the province of Saskatchewan had received assistance by way of loans from the board to December 31, 1928, according to the department of the treasury of that province. From the inception of the scheme to that date a total of \$13,000,000 had been loaned to farmers.

Since 1918 1,250,000 houses have been built in England, providing homes for five or six million people.

## Drought Conditions In Argentine Canada And The British Market

Quantity Shipments of Farm Produce Just as Necessary as Quality Standard in Order to Hold, Trade

In a very instructive article that he has written for the *Country Guide* of Winnipeg, W. A. Wilson, Canadian Agricultural Products representative on the Empire Marketing Board, brings out some of the reasons why Canada is not getting a larger share of the British foodstuff's market. One point that he brings out is of very great interest; it is that quality itself is not sufficient to win the British market; there must be quantity as well.

What Mr. Wilson means is that sales contacts cannot be established and maintained in Great Britain unless there is assurance of an adequate and steady supply of the commodity sold, be it bacon, eggs, meat, salmon, or other foods. This is the lesson that Canada has not learned, Mr. Wilson indicates. We have so raised the quality of our food products that they are thoroughly satisfactory to the British consumer, but we do not provide for Britain a steady supply of our goods. British buyers are very wary of shifting their sources of supply unless they are given every assurance that they can always get what they want when they want it.

Mr. Wilson believes that Canada, in improving the quality of some food products, has shown ability in both leadership and workers. He considers it quite as reasonable to assume that Canada can work out the problems of quantity production that is necessary to hold the British market.

To judge from the article one would assume that all that is necessary to overcome Canada's handicap is to lessen the inertia of the Canadian farmer and farm organizations. If the problem does not go deeper than that, it will be difficult to solve. The Department of Agriculture at Ottawa and in each of the provinces and the various farm organizations have a tremendous opportunity to aid in expanding Canada's export trade.

## Made-In-Canada Exhibition

Will Show Public Quality Of Goods Produced In Dominion

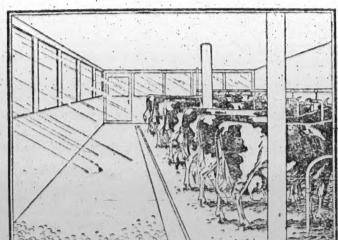

Co-operation of various bodies with the National Produced-in-Canada Exhibition, which will be held in Montreal from November 4 to 9, already seems assured, according to reports received by the Canadian Manufacturers' Association, Quebec division, Montreal branch. "These reports," says the *Gazette*, "show the consensus of opinion strongly supporting the scheme to illustrate to the public, through the medium of the exhibition, the quality and diversity of goods which are produced in Canada by Canadian manufacturers for Canadians."

## Prince Is Expert Typist

The Prince of Wales has been received as an expert typist. On a recent trip to the north of England, he carried a typewriter with him, balancing it on his knees in the train and setting down his impressions of the journey.

## WINDOLITE

MADE IN ENGLAND

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, up to date and safe. It is now being successfully used for sunrooms, verandas, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold air and is easy to fit. It is 100% sunlight and weighs only 1/2 pound to the square foot. A square yard of WINDOLITE weighs about 14 ozs., while a square yard of glass of ordinary thickness, weighs about 135 to 150 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, Lbs., Toronto.

## Use WINDOLITE and let

YOUR PLANTS

YOUR CHICKENS

YOUR CATTLE

Bank in 100% Sunlight

Send for booklet "WINDOLITE"

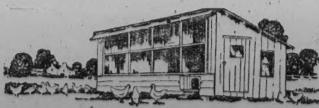

## COMES WITH A MESSAGE OF HEALTH

THE sun is the all-powerful life producer, Nature's universal disinfectant and germ destroyer, as well as stimulant and tonic. WINDOLITE is the sun's most important ally.

Medical research has definitely proved the power of the sun's rays. The sun's rays are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using WINDOLITE, which admits the sun's health-giving rays, therefore the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is most effective as a glass since it fully admits the Ultra-Violet rays, and that its use has a most beneficial effect on the growth and development of plants and chickens and on the well-being of cattle, enabled for the first time to enjoy light instead of darkness in their sheds.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given new stimulus to poultry breeding, increasing the egg-laying capacity and fertility of hens, has greatly improved the health of cattle and is now being used in domestic and household requirements.

## The Singing Fool

By HUBERT DAIL

Copyright, 1928, Warner Bros. Pictures, Inc.

## SYNOPSIS

Marcus, the famous Broadway producer, takes a party of four to Blackie Joe's New York night club. Al Stone, Blackie's chief comedian and singing waiter, has a secret love with Molly, the baldie singer, but she scowls at him, she will never marry a waiter. After she refuses to read a love ballad he has written for her, she goes to the Marcus and tries to intercept herself with the great producer. Al is in despair, but at Blackie Joe's suggestion he goes on the floor and sings the love song himself—but Molly is given a nervous ovation. Once the sweetie girl, who is deeply in love with Al, is in tears. Even Molly is touched. Marcus asked enthusiastically, "Who wrote that song?" and Molly answers, "The waiter—but I gave him the idea."

## CHAPTER VII

Marcus gazed at Molly with renewed interest.

"You gave him the idea, did you? Well, that number has a corking idea. I have a show where I can place it right now. Can you get the waiter over here? I want to talk to him."

Molly was up in a flash.

"Of course he'll come over. I'll get him for you right away."

She tripped away rapidly, heading for Al, who was still standing in the main room by the dressing-room door. The crowd was clamoring for an encore and Molly walked among the clapping customers, hardly able to credit the turn in events. One thing was certain, Al, the obscure waiter, was already on the high road to an immense success. If Marcus took one song he would take others that Al had written. And this was the man whose love she had scorned but a half hour before? That was the song she had refused to read and pushed, carelessly from her dressing table!

How would Al greet her now? She wondered as she walked toward him. Would he show pique because she had dismissed him; would his pride make him treat her coldly?

Meanwhile, Blackie Joe was using his best efforts to induce Al to sing an encore.

"Go out once more, Al," he pleaded. "Give them something else—anything will do. Can't you hear how they've stopped the show for you?"

But Al shook his head. "No, Blackie, I can't do it. I put everything I had into that song. I just can't repeat."

Blackie said it was hopeless to argue. Al's face was white as a sheet; it was evident that the boy had drained his emotional energy to the utmost in putting the song over. Blackie turned quickly to a troupe of dancing girls and ordered them on the floor.

And then Molly swooped into the picture to seize Al's hands.

"Al, you were marvelous. I never heard anything like it. It's a beautiful song" and every word thrilled me!"

Not until then did Al react sharply to his triumph. After all, the applause of the crowd was merely incidental, he had really been singing to Molly, and to her alone. And here she stood, looking up into his face with gentle understanding eyes, confidingly near and dear to him. He tightened his grip on her hands and murmured exultantly.

"You see—now—how I feel?"

There was burning devotion in his glance and Molly answered him with a look fully as ardent. Then she said,

"Yes, Al, I do see now. I was a fool not to see before. Will you forgive me?"

Forgive her! He could hardly keep from taking her in his arms right there in the main room, with Grace and Blackie nearby and the admiring eyes of the crowd on him.

And then Molly's eyes dropped before the burning intensity of his gaze. Perhaps it was a feminine trick to make him feel she was abashed at letting him read her heart, perhaps she really was a trifle ashamed at playing up to him this way and deceiving him. For she didn't love him.

Grace, standing nearby, had watched this scene in its entirety.

She understood it thoroughly. Something had happened besides Molly's reaction to the song to make her approach Al so tenderly and possessively. But whatever the cause Grace knew that Molly's renewed interest in the singing waiter would persist in her own heart. Al belonged to Molly—he showed it by each word and play of expression. His love made him supremely happy and—there was nothing for Grace to do but slip away and try to pretend that she didn't carry an aching heart.

"Al," said Molly excitedly, "you're in luck! You know, that's Marcus of Broadway at the table where I was sitting. He thinks your song's a wop and he wants to see you. I've been plugging for you and telling him how good you are!"

"Marcus!" ejaculated Al.

"Yes," whispered Molly, "and you know what that means. It means success for both of us."

In this way did she win Molly herself with Al, as a matter of course. He accepted it blissfully; it seemed ages ago that she had turned angry eyes on him. Now she was the Molly he adored and believed in, the radiant and affectionate Molly. She quickly wheeled him around, slipped her arm confidentially into his, and led him toward the Marcus table. In that moment she realized that she held him in the hollow of her hand; she could do with him as she pleased.

At the Marcus table Al was quickly introduced. Then the producer came directly to the point.

"You have some great catch lines in that number," he said, "and a good melody. I want it for my revue and I'll get it published for you."

Al sat down, facing Marcus. He was awed and fascinated by the man's appearance and authoritative manner. He knew Marcus by reputation—everybody in New York did—and he understood that Marcus's okay meant bright, light fame for him, a mere singing waiter. Yet so blinded was Al by his adoration for Molly that it never occurred to him to think she was playing up to him because of Marcus's suddenly bearded approval.

As Al faced this producer he felt Molly's hand slipped surreptitiously and confidently into his own. He smiled happily and answered Marcus,

"But you know, that's not my song."

"Not your song?" repeated Marcus, obviously puzzled. Then he glanced toward Molly. "You said he wrote it."

"Yes, I wrote it," added Al quickly, "but it's really Molly's song. I wrote it for her. I couldn't have written it without her."

Marcus waved the remark aside; he wasn't interested in the sentimental reason for the song's creation.

"I don't care about that— you turned out the words and music. I want the number. I want all you can write like it. If you can hold up to that level and repeat consistently I can make your fortune for you!"

Marcus spoke convincingly. Al realized that he meant every word he said. But in all this talk he did not mention Molly; if the producer believed he could push Molly aside, thought Al, he was sadly mistaken.

Al was determined that she should share in any success that came to him. He decided to speak plainly.

"I want Molly to sing everything I write," he asserted. "I want you to have the song, but if you take it you'll have to take Molly too."

Al thought the producer's face fell at a trifle at that ultimatum.

"Don't you see," argued Al, almost vehemently, "that no one can put out my heart song like the way Molly does. You've never heard her sing—she's a woman! And that number was written for her!"

Marcus shook his head. "But I've got a headache of my own—a marvellous little girl. Your song will do for her perfectly."

"Headliner?" countered Al. "Yes, I know, but Molly would be a headache, too, if you just give her a chance, mark my words!"

Al scarcely recognized himself, taking up to this celebrity just as if Marcus didn't mean a thing to him. He felt Molly's grip on his hand tighten. Then, suddenly, the revue expert threw up his hands in acquiescence.

"All right, come to my office tomorrow. Both of you!"

(To Be Continued.)

The Terror of Asthma comes like a thief in the night with its dreadful throttling, robbing its victim of breath. It seems beyond the power of human aid to relieve until one tries to make of that remarkable preparation, Dr. J. D. Kellogg's Asthma Rush. Life becomes worth living, and if the remedy is used persistently, the disease is put permanently to rest. Take no substitute.

## Main Street

Mrs. Bannon of Provost is visiting with her sister Mrs. Pryce Jones.

Mrs. J. H. Elliott is around again after being indisposed for a few days.

Mr. M. M. Ross is decorating the Sunny Brae school.

Mr. and Mrs. Locke and family left Wednesday for a motor trip to Banff.

Mr. C. Goodale has received the contract for putting in a gravel road through the cemetery.

Mrs. Foxwell has returned from Salt Lake near Chauvin where she has been having a holiday.

F. L. Maine and family visited the past week with Mrs. Chase and the Allen families.

The Irma Ladies Aid will meet at the home of Mrs. J. P. Askin next Thursday afternoon.

Mr. G. S. Quast and family of Macklin, Sask., spent Sunday with Mrs. N. Matheson.

Miss Ida Berg returned to her home at Viking Sunday after spending a month in Irma with her sister Mrs. Masson.

Marjorie Bennett and sister left this week to visit with friends in Edmonton before returning to their home in Edmonton.

Miss Lewis, superintendent of the Chautauqua, left Sunday after securing forty signers to the guarantee for next summer. There was a small deficit this season but not enough to discourage most of the guarantees signing for another season.

Cutting is general in all parts of the Irma district. While the crop is short on account of the very dry season, some of the farmers think they will probably realize as much profit from it as they did from last year's crop, as they expect a better price and grade for their wheat.

Miss Marjorie Bennett and sister Helen visited the past week with friends in Avonleben. Miss Bennett had charge of Avonleben school where she gave most satisfactory service for three and one-half years before going to Athabasca last year. All her friends will be glad to know she has secured a position in one of the Edmonton schools and will begin duties there in September.

On Thursday Mr. A. G. Walker left for Brandon, Manitoba, after spending a few days in the Irma district. Mr. Walker is living in Calgary at present but is thinking of moving to Seattle this fall. Since moving to Calgary where they went to be with Mrs. Jessie Robertson, Mrs. Walker's mother, Mrs. Robertson has passed away following an accidental fall shortly after the Walkers moved to Calgary. Mrs. Robertson was well known in Irma district having spent several summers with Mrs. Walker while they were living near Irma.

Warning is again being sent out to merchants and others to not carry large sums of money in their safes at any time, especially night time. Petty thievery and safe blowing is bound to occur where this practice is known to exist.

This line has had more than its share of fires recently. Wainwright, Jarrow, Viking, Bruce, Holden and Tofield have all suffered. It is possible that a fire bug is operating along this line?

A Few Noodles by Tun.

S O U P

"A Few Noodles by Tun."

"Yes, I'm having that house renovated," said a young man here last week to a friend. "I'm getting married next week." "Getting it wired for an all-telkie, eh?" was the reply.

"The boss is beginning to take an interest in me," said a new clerk in a local store to a fellow employee. "Is he?" remarked the other. "Yes, he asked me yesterday if I worked here," was the reply.

Overhearing a young travelling man criticise the pie, a Holden restaurant keeper said: "Pie, young feller? Why I made pies before you were born." "Yes, but why sell 'em now?" replied the travelling man.

"Have you any recommendations?" asked an employer here when a young fellow solicited him for a job. "Well," was the reply, "all of the girls around here swear that I'm a fast worker."

CAMROSE U. F. A.  
LOM. CONSTITUENCY  
CONVENTION REPORT

The annual convention of the Camrose U. F. A. Constituency association was held at Forestburg on Thursday last, August 1st. Hector MacKenzie, president of the association, gave a report of the work done by the executive board during the past year, following which committees were appointed as follows: Order of business and credentials, A. G. Andrews, M.L. A. J. E. Brown and Mrs. G. Roose; Resolutions, A. L. Sanders, M.L.A., Chas. P. Hayes and A. Lugar. Hector MacKenzie was elected chairman of the convention, after which the morning session was adjourned until 1:30 o'clock.

The afternoon session opened with the singing of "O Canada." Mrs. J. L. Zipperer, U.F.W.A. director, addressed the convention, and her remarks were received with hearty applause. J. E. Brown was called upon to speak and he outlined the U.F.A. organization and urged upon all present the need for keeping the membership up to standard. Mr. Brown's remarks were well received by those present.

A. L. Sanders, M.L.A., of Stettler, addressed the convention, and in the course of his remarks, congratulated Mayor L. M. Rogers and the Board of Trade of Forestburg for the splendid arrangements that had been made for the reception and entertainment of the delegates to the convention. A. G. Andrews, M.L.A., of Sodzwick, gave a well thought out speech, which won him hearty applause. Dr. L. M. Rogers, as mayor of Forestburg, spoke briefly, expressing on behalf of the citizens their pleasure at having the convention at that point, and extending an invitation to the delegates to hold their next convention there also.

W. T. Lucas, M.P., next addressed the gathering. In his opening remarks, Mr. Lucas thanked the delegates for the splendid turn-out at the convention. He outlined the doings of the last session of the dominion house at Ottawa, and explained the budget and other financial affairs of the government, and amendments to the different acts. At the close of his address Mr. Lucas was given hearty and prolonged applause and the convention passed a vote of thanks and continuous confidence in his services at Ottawa.

At this point, the credential committee reported that there were thirty U.F.A. and U.F.W.A. locals represented with forty-two delegates.

Robert Gardiner, M. P., was the next speaker. After making congratulatory remarks on the attendance, Mr. Gardiner proceeded to explain the Canada Grains Act and its workings. He also explained the Wheat Pool contract and dealt on the subject of co-operation. At the conclusion of his remarks, Mr. Gardiner was tendered a hearty vote of thanks "by those present."

An number of important resolutions were passed, following which the following officers were elected:

President—Chas. P. Hayes, Strome, 1st Vice-President—Mrs. Ed. Kehoe, Camrose.

2nd Vice-President—G. Oberg, Forestburg.

Directors—

Division 1—Nels Toppe, Merna.

Division 2—A. Haywood, Gladys.

Division 3—Jas. McConnell, Nevis.

Division 4—W. J. Brady, Edberg.

Division 5—A. Rhysdon, Bawlf.

Division 6—F. Grandage, Lougheed.

Following the election of officers, a board meeting was held and Frank Grandage, of Lougheed, was re-elected secretary and treasurer and appointed press correspondent.

This brought to a close one of the best and largest conventions ever held in the Camrose federal constituency.

Heard on the street: "How's your wife coming along with her driving of the new car?" "She took a turn for the worse last week."
